

(THUD) Congressman Dan Newhouse FY2022 Community Project Funding Request Form

Transportation, and Housing and Urban Development, and Related Agencies requests only. The deadline to submit a request to my office for this spending bill is end-of-day Friday April 16th, 2021.

Section 1

General Instructions

The Committee on Appropriations recently announced that it will be accepting Community Project Funding requests from Members of Congress, designed to help deliver additional, targeted federal funding to select projects in districts across the country. My office is currently accepting eligible requests for project funding which will help improve the lives of Central Washington and support the economic prosperity of our state. You can find general guidelines for which types of projects are eligible here and below:

- For-profit entities are not eligible for Community Project Funding.
- Each project request must be for fiscal year 2022 funds only and cannot include a request for multi-year funding.
- Requests will be posted online.
- State or local governmental entities are encouraged to apply as the primary grantee to oversee the completion of the project.
- For infrastructure projects, many States have established lists or intended use plans with projects that have already been vetted by governmental officials (e.g. drinking water, wastewater, and highways).
- Requests to direct funding to a non-profit organization must provide evidence that the recipient is a non-profit organization as described under section 501(c)(3) of the Internal Revenue Code of 1986. Further, many water projects often partner with non-profit entities to complete projects. Therefore, projects may also be directed to non-profits with an inherently governmental function. Community engagement and support is crucial in determining which projects are worthy of Federal funding. Only projects with demonstrated community support will be considered. Examples of this include, but are not limited to:
- Letters of support from elected community leaders (e.g. mayors or other officials);
- Press articles highlighting the need for the requested Community Project Funding;
- Support from newspaper editorial boards;
- Projects listed on State intended use plans, community development plans, or other publicly available planning documents; or
- Resolutions passed by city councils or boards.

All Community Project Funding requests must be submitted by Friday, April 16th.

1. By filling out this form, you understand this is not an application for federal funding. Submission of this information does not create a binding commitment on any party nor a guarantee that any organization or program will be awarded funding from any federal agency through the appropriation process.

Furthermore, the submission, review, and approval of applications for federal funding will be carried out consistent with federal agency rules and regulations. If this request meets all necessary conditions herein and is requested by

Congressman Newhouse for inclusion in any appropriation bill for fiscal year 2022, this request will be made publicly available. This form is specific to requests for Community Project Funding. Requests for program funding or language must be submitted through separately and cannot be accepted through this specific form. Do you wish to continue?

Project Priority

6.If you are making more than one Community Project Funding Request, please rank this request in order of priority.

Section 4

Department of Transportation

Local Transportation Priorities Local Transportation Priorities are highway and transit capital projects eligible under title 23 and title 49 of the United States Code. Eligible projects are described under Section 133(b) of title 23, United States Code. Tribal and territorial capital projects authorized under Chapter 2 of title 23, United States Code, are also eligible. All projects must be: - Capital projects or project-specific planning/design for a capital project. - Supported by the state or local government that would administer the project. Inclusion on a Statewide Transportation Improvement Plan (STIP)

or Transportation Improvement Plan (TIP) would satisfy this requirement. - Administered by public entities. The Subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation. These include general operating expenses, and activities required under sections 134 and 135 of title 23, United States Code. Airport Improvement Program (AIP) AIP community project requests may be used for enhancing airport safety, capacity, and security, and mitigating environmental concerns. All projects must be: - AIP eligible in accordance with sections 47101 to 47175 of title 49, United States Code, and FAA policy and guidance. - Supported broadly by local stakeholders, including residents, businesses, and elected officials. - Administered by an airport and/or airport sponsor.

Section 5

Department of Housing and Urban Development

Economic Development Initiative (EDI) EDI community project requests may be used for economic and community development activities, including land or site acquisition, demolition or rehabilitation of housing or facilities, construction and capital improvements of public facilities (including water and sewer facilities), and public services. Requests may also include planning and other activities consistent with the underlying authorization for the Community Development Block Grant program within HUD. EDI community project requests are not eligible for the reimbursement of expenses for activities already undertaken (including debt service or debt retirement). All projects must be: - Supported broadly by local stakeholders, including residents, businesses, and elected officials. - Administered by governmental or non-profit entities, including public housing agencies, as well as tribes and tribally designated housing entities.

Section 6
